Are your fees economical?

Yes. Our fee is only Rs 5000. It is possible because in a normal

class, a faculty teaches 50-60 students & charges Rs 2000 as his lecture fees whereas in case of online lecture, 2000 students attend the lecture and thus cost of faculty is only Re 1 per student. And for a repeat revision lecture, our faculty obviously does not charge extra.

Are you trying to replace traditional coaching classes?

No. We are supplementing them, though our online lectures & tests are more than sufficient.

For eg. A student undergoing normal coaching class can enroll with us & attend the lectures or tests multiple times for revision because in a coaching class once a lecture is over, its over forever. There is no chance for re-attending it whereas with Route 2 MBA, you can re-attend lectures as well as practice tests on 3 occasions.

Can a student attend free session to understand the quality of lectures and tests?

Yes. Free demo-lecture & demo-tests are provided on the site, which can be attended to understand the quality of coaching.

Does a student have to enroll for all subjects?

No such restriction. Route 2 MBA offers different packages, through which one can opt for lectures or tests of the required subjects with reduced fees.

- Only Verbal Ability
- Only Quantitative Ability
- Only Tests (Practice & Mock) for all subjects
- Only Lectures for all subjects

Other Institutions also give sessions for GD and PI, what makes the GD-PI sessions of Route 2 MBA different?

- 10 live GD/PI sessions are provided.
